PROFILE

Detail-oriented Information Technology student with hands-on experience in Python and software development fundamentals. Currently learning the MERN stack (MongoDB, Express.js, React, Node.js) to build Full-stack web applications. Passionate about leveraging AI tools to enhance productivity and exploring AI integration in modern web development.

EDUCATION

PARUL UNIVERSITY, *Bachelor of Technology, Information Technology* 2023 – 2027
- CGPA - 7.60

EXPERTISE

Frontend development

- React.js (Intermediate)
- HTML
- CSS
- JavaScript(Learning)

Backend Development

- Node.js(Intermediate)
- Express.js(Intermediate)

Database

- MongoDB
- SQL

Programming and Software Development

- Java
- Software Development Fundamentals(SDLC)
- Object-Oriented programming(OOP)
- DSA(Java)

Design & AI Tools

- Cursor
- Claude
- Replit
- Antigravity

Development Tools & Deployment

- Git
- GitHub
- VS Code
- Railway
- Vercel

SKILLS

Willingness to Learn | Leadership | Team Collaboration | Task Prioritization |
Attention to Detail | Continuous and Self-Learning | Adaptability | Problem-Solving

WORKING EXPERIENCE

Python Programming Intern (Virtual) | Oasis Infobyte |, Sept 2025 – Oct 2025

- Developed 4 Python applications including a Voice Assistant, Weather Expert, Password Generator, and BMI Calculator.
- Applied automation, API integration, and problem-solving concepts to create user-focused solutions.
- Earned a Star Performer recognition along with a Letter of Recommendation, Appreciation Certificate, and Completion Certificate.

Web Development Intern (Virtual) | Aenexz Tech Pvt. Ltd. |, Mar 2026 – May 2026

- Built responsive and user-friendly web applications.
- Developed, tested, and optimized web features for improved performance.
- Applied debugging and problem-solving techniques to resolve application issues.
- Gained hands-on experience in web development and software development workflows.

PROJECT

CricSenseX, *Real-Time Cricket Scoring Platform*

Developed a full-stack real-time cricket scoring and tournament management application featuring ball-by-ball scoring, Firebase live synchronization, innings management, strike rotation, player analytics, NRR calculation, fantasy points engine, and leaderboard systems. Implemented event-driven match architecture, undo/history tracking, admin controls, tournament automation, and a responsive mobile-first UI for seamless live match management and viewer engagement.

Tech Stack: HTML5, CSS3, JavaScript, php, Firebase Realtime Database

Gym Buddy, *AI-Powered Social Fitness Platform*

Developed a scalable MERN-based fitness platform that connects users with compatible workout partners, enables verified fitness streaks through proof uploads, provides personalized workout recommendations, progress tracking, and AI-driven motivation. Implemented secure authentication, real-time engagement features, and a gamified reward system to improve user consistency and long-term fitness adherence.

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS, AI Recommendation Engine, Render/Vercel

ACHIEVEMENT & CERTIFICATION

Python Programming Internship

- Successfully completed a 1.5-month Online Python Programming Internship.
- Received Letter of Recommendation (LOR) for performance during internship.
- Awarded Completion and Appreciation Certificates for Python internship.

NPTEL computer network course, *IIT Kharagpur*

- Completed NPTEL computer network course and received an elite grade certification.

Prompt Engineering With GitHub Copilot, *Microsoft*

Learned techniques for generating efficient code, documentation, and development solutions using AI.

Google CloudAI, *Simplilearn*

Gained understanding of cloud-based AI services and their practical applications.

AI tools workshop certification

- Attended online AI tools workshop and received a certificate.
